

=maxifs (G2:G21, F2:F21, F5)
o/p : 12,000

5/10/26

14 Find total salary of marketing team of north region employee

= sumifs = adds the values in a range that meet one specific condition

Syntax: =sumifs (sum-range, criteria-range1, criteria1, [criteria-range2, criteria2], [criteria-range3, criteria3])

Ex: =SUMIFS (G2:G21, F2:F21, F12, E2:E21, E6)

o/p : 15750

15 Calculate the average salary of the employee who were earning 10K in training department.

= AVERAGEIFS () : calculates the average of values that meet multiple conditions

Syntax: =AVERAGEIFS (average-range, criteria-range1, criteria1 [criteria-range2, criteria2], [criteria-range3, criteria3])

Ex: =AVERAGEIFS (G2:G21, F2:F21, F21, G2:G21, 10000)

o/p : 10000

or

Ex: = AVERAGEIFS (G2:G21, G2:G21, 10000, F2:F21, F21)
o/p : 10,000

- 16 How many employees working from jayanagar R & D department in south region

= COUNTIFS = Counts the number of cells/records that meet multiple conditions

Syntax: = COUNTIFS (criteria-range1, criteria1, [criteria-range2, criteria2], [criteria-range3, criteria3])

Ex: = COUNTIFS (C2:C21, C12, F2:F21, F9, E2:E21, E11)
o/p : 0

- 17 How many employees working from jayanagar marketing department in south region

Syntax: COUNTIFS (criteria-range1, criteria1, [criteria-range2, criteria2], [criteria-range3, criteria3])

Ex: COUNTIFS (C2:C21, C12, F2:F21, F12, E2:E21, E15)

with employee data calculating DA, HRA, TA, BONUS, INSENTIVE, ~~PE~~ PF, TAX, NET SALARY, GROSS SALARY

- 1 Calculate DA of 8% of Basic salary
DA = Dearness allowance, given to employees to compensate for inflation / cost of living
Ex: $= G2 * 8\%$
o/p : 800
- 2 Calculate HRA 12% of Basic salary and DA
HRA = House rent allowance, provided to help employees with house / rent expenses
Ex: $= (G2 + H2) * 12\%$
o/p : 1296
- 3 Calculate TA of 4000 for marketing department
TA = Travelling allowance, amt given to cover travel transport expenses
IF = checks a condition and returns one value if it is True and another value if it is FALSE
Syntax: $= IF(\text{logical_test}, [\text{value_if_true}], [\text{value_if_false}])$
Ex: $= IF(F2 = \$F\$4, 4000, 0)$
- 4 Calculate BONUS of 3000 for only accounts south region
BONUS: additional payment given to an employee
AND = checks multiple conditions, it returns true

only when all conditions are true

Ex: IF (AND (F2=\$F\$3, E2=\$E\$5), 3000, 0)

5 Calculate incentive 5000 for either banglore or operation department

INCENTIVE: Extra payment/reward given for achieving specific targets or performance

OR: checks multiple conditions. It returns TRUE if atleast one condition is TRUE

Ex: IF (OR (D2=\$D\$11, F2=\$F\$18), 5000, 0)

6 Calculate PF 15% of Basic Salars

PF = provident fund, retirement savings contribution made by employee and usually employer

Ex: = G2*15%

7 calculate tax of the employee based on Salary

Nested if (): using one IF function inside another IF function to check multiple conditions one after another

Ex: IF (G2 <= 5000, 0, IF (G2 <= 10000, 100, IF (G2 <= 15000, 200, IF (G2 <= 20000, 300, 400)))

o/p: 100

or

Ex: IFS ($G_2 \leq 5000, 0$, $G_2 \leq 10000, 100$, $G_2 \leq 15000, 200$,
 $G_2 \leq 20000, 300$, $G_2 > 20000, 400$)

8 Calculate Net Salary

Net salary = amt the employee actually receives
after deductions

$$\text{Net salary} = GS - PF - \text{tax} - \text{other deductions}$$

9 calculate Gross salary

Gross salary = total salary before deductions
Such as PF & TAX

$$GS = \text{Basic salary} + DA + HRA + TA + \text{Bonus} + \text{incentive}$$
